

西元前 283，周朝後期，春秋戰國，歷史上雖還稱為周朝，其實諸侯割據，皇權旁落，根本令不出宮門，甚至還靠諸侯的支持，所以屬於亂世，諸侯之間互相兼併，爭戰不止，以大欺小，以強凌弱。

In 283 BC, during the later stage of the Zhou Dynasty in the Spring and Autumn Period; although historians still call this period as the Zhou Dynasty, but in fact, this period is marked by the country splitting into feudal fiefdoms, as the emperor's central authority is being sidelined when imperial rule cannot even extend outside the Imperial Palace's gates, even to the extent that the Emperor must rely on the dukes and princes of the feudal fiefdoms for support. This is truly a turbulent time; while the dukes and princes of the feudal fiefdoms are constantly fighting each other for territories and dominance in an unending series of wars, as the strong and powerful would bully the weak and powerless.
